Performance and Learning Outcome

2018-2019

After earning their B.Ed. (M.Ed.) for two years during the two-year program, student teachers will be able to acquire the following abilities:

Competence in Content:

- To promote mastery of the required content in foundation and methodology courses by imparting pertinent knowledge.
- To comprehend the paradigm shift in how disciplinary knowledge is conceptualized in school curriculum, to acquire the necessary competencies for organizing learning experiences, and to select and employ appropriate assessment strategies to facilitate learning.
- To examine the syllabus, textbooks, and content.

Teaching Skills:

- To confer training abilities and techniques to move the given content reasonably in homeroom circumstances. Teachers learn the material, understand their students, communicate with their parents, and establish guidelines.
- To advance and analysis homeroom rehearses.
- to raise the standard of instruction and learning.

Ethics in the workplace:

- to imbibe and uphold the qualities of a good teacher, such as being fair and impartial, loving and respecting each child as an individual
- inspiring and professionally assisting parents in the care and guidance of their children
- developing a professional attitude, and demonstrating a commitment to values such as loyalty, love, service, equality, and excellence.

Responsible citizenship:

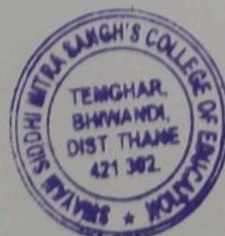

- to comprehend various values like morality, charity, and accepting responsibility for society.
- to cultivate leaders from all walks of life and, as a result, be agents of social change by breaking free of all social ills for the betterment of our nation's citizens and the world.

Communication:

- It is the capacity to communicate information effectively and efficiently to another person.
- The objective is to plan, teach, and organize school-related and community-based activities and programs. We collaborate with parents and the community for the betterment of students. The goals are to boost confidence and improve communication skills.

CLOs: After the completion of the course the student will be able to:
