No one would have guessed that a virus-like Covid-19 would come and without differentiating, it will alter the lifestyle of people. The Covid-19 impact was everywhere, which resulted in the closure of Schools and Colleges and other educational institutions.

Initially, most governments have decided to temporarily close the schools and Colleges to reduce the impact of Covid-19. Later it was reopened for a few grades, which increased the number of infection rates and then closed again.

Though schools and colleges are closed, students are attending their classes through various education initiatives like online classrooms.

At that time our teachers who are all experts in Blackboard, Chalk, books, and classroom teaching are really new to this digital teaching but they started online teaching. .
