## Action Taken Report on Student Feedback Survey

We conducted a student feedback survey regarding the infrastructure, ICT facilities, library facilities, and discipline of our college. Based on the feedback received, we have taken the following actions:

### Infrastructure

- We have identified the areas that need improvement in terms of infrastructure and have allocated funds for the same.
- The maintenance team has been instructed to carry out regular checks and repairs to ensure that the infrastructure is in good condition.
- We have also planned to renovate the classrooms and common areas to provide a more comfortable and conducive learning environment.

### ICT Facilities

- We have upgraded the Wi-Fi network to ensure better connectivity and faster internet speeds.
- Additional computers have been installed in the computer labs to cater to the increasing demand.
- We have also provided training sessions to the faculty and students to enhance their knowledge and skills in using the ICT facilities.

### Library Facilities

- We have increased the number of books and journals in the library to cater to the diverse needs of the students.
- We have also introduced an online library management system to enable easy access to the resources.
- The library staff has been instructed to provide better assistance to the students in finding the required resources.

### Discipline

- We have formed a disciplinary committee to monitor and maintain discipline on the campus.
- The committee has been given the authority to take appropriate action against any student found violating the rules and regulations of the college.
- We have also conducted awareness sessions for the students to sensitize them about the importance of discipline and the consequences of violating the rules.

We hope that these actions will address the concerns raised by the students and provide a better learning environment for them.
